

David DeVeau

Westfield, MA 01085

(413) 519-9543 / David.DeVeau@DEVCO-Design.com

Summary

Innovative electromechanical lead design engineering with 35+ years of experience in product design and development for commercial, industrial and military applications with successful ability to guide a project and components from concept to completion with practical solutions to complex challenges.

Skills

- Executive engineering team leadership
- Budget and schedule management
- Engineering / Manufacturing management
- Client / Vendor relations
- Patent research and IP development
- Federal and State design regulations
- Industrial drafting and tolerance standards
- Strong written and verbal communications

Experience

Lucent Technologies
Hyannis, MA
2000 to 2002

GE / Alstom Power
Windsor, CT
2002 to 2021

Onset Computer
Pocasset, MA
1995 to 1998

DT Sencorp
Hyannis, MA
1998 to 2000

Micrologic
Chatsworth, CA
1984 to 1994

Hasbro Toys
Pawtucket, RI
1994 to 1995

RCA Cable Vision
North Hollywood, CA
1982 to 1983

Vector Graphics
Thousand Oaks, CA
1983 to 1984

Compugraphics
Wilmington, MA
1974 to 1979

Sweetheart Plastics
Wilmington, MA
1979 to 1982

- Structural Design and Erection Support
- Manufacturing Design and Support
- Electromechanical Interface Systems
- Electrical and Plumbing Interface Systems
- Refractory Concrete Interface Systems
- Production Processes and Fixture Designs
- Molded Parts and Tooling Designs
- Welding, Machining and Sheet Metal Designs
- Printed Circuit Board Outline Designs
- Harsh Environment Enclosure Designs
